RE: Remediation of Coal Pile

Dear Mr. Barry:

The Division of Solid and Hazardous Waste has completed its review of your January 20, 2011 proposal for remediation of an old coal pile at the Chemical Lime Company's Delle Facility, in Tooele County, Utah. We have also communicated with Ms. Leslie Heppler of the Utah Division of Oil, Gas and Mining about their reclamation plan to address the old coal pile at the facility.

Since the burying of the coal pile onsite with four feet of cover is part of the reclamation plan approved by the Division of Oil Gas and Mining, the proposal is also acceptable to the Division of Solid and Hazardous Waste.

If you have any questions, please call Doug Taylor or Ralph Bohn at (801) 536-0200.

Sincerely,

Original Document signed by Scott T. Anderson on 1/27/2011

Scott T. Anderson, Executive Secretary
Utah Solid and Hazardous Waste Control Board
